Education:

Refactory, Uganda

January 2023 – February 2024

Certificate in Software Engineering

- Completed an intensive 12-weeks training at the Refactory with a specialization in Python programming.
- Proficient in building web applications using Django frameworks.
- Collaborated on team projects, honing version control and agile development practices.

Objective

Aspiring software engineer with a passion for Python programming and a strong foundation in web development. Eager to leverage my skills and hands-on experience gained from The Refactory to contribute to innovative projects.

Skills:

- Programming Languages: Python
- Web Development: Django, HTML/CSS
- Database Management: SQLite
- Version Control: Git, GitHub
- Problem Solving: Analytical thinking, debugging, troubleshooting
- Tools: VS Code

Projects:

- **Be Real Motor Spare Parts Company**
This project provides a software solution for the company called Be Real Motor Spare Parts Company. The software solution is meant to help the company in stock management, record keeping and carrying out sales.
You can check out for this project via this link to my GitHub:
https://github.com/EstherAuma/First_project

Extracurricular Activities:

- Participated in a local Python programming group, attending meetups and workshops.
- Completed online courses on advanced Python topics and algorithms.

Interests:

- Exploring machine learning and data science with Python.
- Solving algorithmic challenges on platforms like LeetCode and HackerRank.
- Attending technology conferences to stay updated with industry trends.
